

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application. Claims 1, 2, 7, and 12 are presently amended.

Listing of Claims:

1. (presently amended) A doll figure ~~capable of securely holding eyeglasses~~ comprising:

(a) arms or appendages attached to a body or torso ~~that, wherein the arms or appendages form a horizontal position relative to the ground, and wherein the arms or appendages together with the body or torso are sized to accommodate a pair of eyeglasses so that the eyeglasses contact each of the arms or appendages and the arms or appendages together with the body or torso form a holding device for receiving the pair of eyeglasses; and~~

~~(b) a holding device for receiving a pair of eyeglasses into the arms or appendages, wherein the eyeglasses contact the device at least at the part of the eyeglass frame around or near the lens of the eyeglasses;~~

~~(c) a support structure for holding the doll figure in an upright position, wherein the doll figure is capable of securely holding a pair of eyeglasses.~~

2. (presently amended) The doll figure of claim 1, wherein the doll figure is fashioned to display a human form.

3. (withdrawn) The doll figure of claim 2, wherein the doll figure further comprises a face having a pair of doll eyeglasses.

4. (withdrawn) The doll figure of claim 2, wherein the doll figure further comprises decorative clothing.

5. (withdrawn) The doll figure of claim 4, wherein the doll figure further comprises wings.

6. (original) The doll figure of claim 2, wherein the body of the doll figure comprises an element for contacting the bridge part of the eyeglasses.

7. (presently amended) A figure ~~for securely holding eyeglasses,~~
comprising:

(a) moveable arms or appendages, wherein the arms or appendages can be temporarily fixed in a horizontal position;

(b) a holding device for receiving a pair of eyeglasses, wherein the eyeglasses contact the device at least at the part of the eyeglass frame around or near the lens, and wherein the moveable arms or appendages together with a body or torso of the figure are sized to accommodate a pair of eyeglasses so that the eyeglasses contact each of the arms or appendages;

(c) a support structure ~~for~~ holding the figure in an upright position.

8. (original) The figure of claim 7, wherein the figure is fashioned to display a human form.

9. (withdrawn) The figure of claim 8, wherein the doll figure further comprises a face having a pair of doll eyeglasses.

10. (withdrawn) The figure of claim 7, wherein the doll figure further comprises decorative clothing.

11. (withdrawn) The figure of claim 10, wherein the doll figure further comprises wings.

12. (presently amended) The figure of claim 7, wherein the body of the doll figure comprises an element for contacting the bridge part of the eyeglasses.

13. (withdrawn) A toy capable of securely holding eyeglasses comprising:
(a) horizontal members that are permanently fixed or can be temporarily fixed in a horizontal position relative to the ground;
(b) a holding device for attaching a pair of eyeglasses to the horizontal members;

(c) a support structure for holding the toy in an upright position.

14. (withdrawn) The toy of claim 13, which comprises a bank.
15. (withdrawn) The toy of claim 13, wherein the holding device further comprises an element to attach the bridge of the eyeglasses to the holding device.
16. (withdrawn) The toy of claim 13, wherein the holding device can be removed from the toy.
17. (withdrawn) The toy of claim 13, wherein the holding device further comprises a clip for locking the eyeglasses into the holding device.
